iOS ENGINEER

Native app development | Swift, SwiftUI, UIKit

PROFESSIONAL SUMMARY

iOS engineer with experience across retail, interactive publishing, and connected products. Focused on hands-on development, native interfaces, and maintainable application architecture, with experience leading engineering teams and mentoring developers.

TECHNICAL SKILLS

Languages: Swift, Objective-C, C#, JavaScript

Apple Frameworks: SwiftUI, UIKit, Combine, Swift Concurrency (async/await), Core Data

Architecture: The Composable Architecture (TCA), MVVM, modular Swift packages (SPM), REST APIs

Testing & Tooling: XCTest, snapshot testing, SwiftFormat, Fastlane, Xcode Cloud, Git

Practices: Accessibility (VoiceOver, Dynamic Type), unit testing, code review, mentoring, team leadership

PROFESSIONAL EXPERIENCE

Lead iOS Engineer

Target Corporation | 2022–Present

- Develop native iOS experiences and contribute to application architecture, testing, and code review
- Support engineering colleagues through technical guidance and mentoring

Senior iOS Engineer

Designer Brands Inc. (DSW) | 2021

- Worked on mobile application development, architecture, and engineering practices across the Designer Brands portfolio

Principal iOS Engineer & Engineering Manager

DICK'S Sporting Goods | 2020–2021

- Combined hands-on iOS engineering and technical direction with leadership of mobile engineering teams

Senior Developer of Mobile & IoT

DornerWorks | 2019–2020

- Developed mobile applications for connected products, working across device and cloud integrations

iOS Lead Architect

Meijer | 2015–2019

- Developed native retail experiences, including shop & scan
- Worked on application architecture and the transition from Objective-C to Swift

Senior Developer for Mobile Applications & IoT

BISSELL | 2017

- Worked with development partners on mobile applications for connected home cleaning products

Senior iOS Developer

Sportsman Tracker | 2015

- Developed and maintained the iOS app and mentored a fellow developer

Senior Developer of Mobile Technologies

HarperCollins Publishers | 2012–2015

- Developed interactive iOS applications including The Beginner's Bible, The Purpose Driven Life, and Common Prayer
- Created StoryBook Builder, a visual authoring tool used to produce more than 400 interactive pages

Senior Software Engineer

X-Rite/Pantone | 2000–2011

- Built software for color measurement products, including paint matching and quality assurance tools

EDUCATION

Associate of Applied Science in Computer Programming (Honors), Professional Careers Institute

PATENT

U.S. Patent 7,499,164 (2009), co-inventor

Systems and methods for profiling and synchronizing a fleet of color measurement instruments
